

# SARA - CHEM (INDIA) PVT. LTD.

Innovation, Consistent Product Quality, Safety is our focus

Meeting The Needs of Synthetic Fiber & Aerosol Industry for

- Synthetic Fiber Processing Chemicals
- Aerosol Raw Materials
- Aerosol Machines
- Consumer Aerosol Products.

# Sara Chem India Pvt Ltd

Incepted in the year 1989, we are one of the renowned manufacturers, exporters, importers, and traders of quality aerosol products. Our range of products include; specialty products for Synthetic Fiber Industry, Aerosol Tin Cans, Valves, Caps, Aerosol Contract Filling and Turnkey aerosol plant installations & solutions.

Being a quality-centric organization, all our products are manufactured under intense quality control criterion with specific focus on process controls, safety, and use of excellent quality raw materials, which are sourced from reliable and audited suppliers. This has ensured that we offer products that have high reliability and operatability.

## Products for the Synthetic Fiber Industry

### Silicone Spinneret Spray - Sarasil™ R-51-HS

SARASIL Silicone Spinneret Spray is a propriety aerosol product having High Viscosity Silicone Oil as its primary ingredient.

The main feature of the Silicone oil used in the product is its thermal stability and resistance to oxidation and charring in exposed conditions at high temperatures (exceeding 300°C). The Silicone Oil forms a thin film on the spinneret surface and maintains its effect for a long duration due to its heat stability and low volatility.

### Heater Cleaner Spray - Sarafix™ 51-X

SARAFIX - Heater Cleaning Spray is a highly active neutral cleaning agent in the aerosol form. The neutral active foam of SARAFIX removes all kinds of deposits from the surface of primary heaters on Texturizing Machines and Godets on Spinning Machines.

The overall cleaning process is free from any surface particles ensuring no possibility of any physical damage to the delicate heater and godet surface.

The active neutral surface active foam of SARAFIX can also be used on Nitrated Heater Surfaces. SARAFIX comes in two product variants. SARAFIX- 51X and SARAFIX-51X - HT

## Industrial Maintenance Chemicals

### Anti Rust/Seize Spray - SD 51

We are a renowned for the supply of a wide array of Anti Seize/Rust Sprays that are widely used for maintenance purposes in the industries as well as in the automotive workshop and service centers.

Possessing strong water repellent features, these products are very effective in servicing the machines even after years of keeping them idle.

#### SD - 51 Product Features

- » Heavy duty anti-rust & anti- seizing release spray.
- » Formulated to achieve multi-action of rust removal, rust prevention and to release the seized threads
- » Has water repellent properties to prevent moisture deposition once applied on the affected part.
- » Also provides mild long lasting lubrication to de- seize the threaded part without any mechanical damage and prevents
- » Further jamming of the parts.
- » Is a green product made of environment friendly ingredients and CFC free propellants.

## Carburetor Choke Cleaner - CC - 51

CC - 51 is a fast acting drying aerosol product designed to penetrate, loosen, and flush away varnish, oil, gum deposits from the carburetors, chokes, PCV valves, and throttle plates. The high delivery rate efficiently flushes away maximum portion of the loosen debris. Extensively appreciated across many industrial applications, our collection is precisely formulated by experienced chemical engineers

### Features

- » Excellent dissolving properties
- » Water resistant
- » Prevent metals from rust

## Sara Electronic Contact Cleaner - SEC-533

SEC - 533 is an inert cleaner for electronic and electrical equipment. It removes contaminants, dust, dirt, atmospheric oils, moisture, etc. Leaves no residue after complete evaporation. It is safe for most rubber, plastics, and coatings.

### Features

- » No Ozone Depleting Chemicals
- » Fast Evaporation Rate
- » Safe For Use On All Metals
- » Low Aromatic Content
- » Removes Dust, Dirt, Oil and Other Industrial Soils
- » Leaves no residue

## Products for the Consumer Market

### Air Fresheners - 7 Senses

We offer a broad collection of Air Freshener Sprays to cater to the changing buying and lifestyle habits of today's generation. Offered under the brand name '7Senses', we market our products which offer instant and durable freshness by spreading cool and refreshing aroma. The dry preparations of these air fresheners does not stain furniture, upholstery, curtains, and fabrics. These products are widely used by several star category Hotels, Housekeeping Agencies, apart from Shipping lines and Retail stores.

7 Senses is offered in seven enchanting fragrances:

- » Misty Rose
- » Holy Sandal
- » Lemon Tangy Citrus
- » Himalayan Musk
- » English Garden
- » White Jasmine
- » Cool Lavender

## Pepper Spray - Punch

One of the Best Known - Self Defense products, for people of all ages. Ideal for every household (housewives), elderly people, working females, college students, bankers, jewelers and one and all.

Our product's salient features:

- » Special Safety Cap that is highly essential to prevent accidental spraying
- » Extremely effective product that causes extreme irritation to the person (Temporary only, no permanent damage), on whom it is sprayed giving the user enough time to save themselves from the attackers.
- » Long shelf life of over 3 years and the product can be used multiple times

## Aerosol Raw Materials, Machines & Services Tin Plate Aerosol Cans and Valves

Our Aerosol Valves and Cans are designed applying the latest technology to offer distinctive features to render unmatched printing quality and enables seamless welding that ensures a 100% leak proof aerosol container.

In addition, these tin plates ensure in long shelf life as well as the long lasting features of the cans manufactured and hassle free performance of the valves. Owing to these features these cans find extensive use in over 20 major Aerosol industries across the country.

Specifications:

- » Printed/Plain cans ranging from 45 to 65mm Diameter (100 to 600 ml)
- » Produced with 100% leak proof guarantee and supplied, as per customer requirements
- » Can be customized per user needs

We ensure adequate stocks of different types of Valves (Mould Release / Air Freshener / Powder / 360 Degree Valves) & Actuators to cater to any critical client demands at shortest notice

## Aerosol Machines and Turnkey Solutions

We firmly believe in the total harmonious growth and expansion of the aerosol industry for the mutual benefit of all existing players and new entrepreneurs and customers at large.

We have:

- » Facilitated the production capacity of up to 6,000 cans in an 8 hour shift with complete in-line testing and hassle free functioning of equipment. These machines have high reliability, up time, and consistent output
- » Equipment that we provide undergo rigorous quality tests by our quality control team at every stage of manufacturing process, in order to ensure flawless range to our clients.
- » Dedicated training personnel, operators, and maintenance staff that will help you start your operations and debug the process with seamless after sales service and spares

Our offering:

- » Semi Automated filling machines
- » Gas filling machines
- » Automatic and manual crimping machines
- » Booster pumps
- » Gas columns

### Contract Filling/Private Label Manufacturing

Sara Chem offers custom packaging and is one of the top contract filler manufacturers in India. We are dedicated to producing quality custom products for companies seeking to outsource aerosol and volumetric filling. Our clients rely on us to deliver custom contract filling solutions for their unique product needs. We are dedicated to exceeding our client's expectations by providing high quality, low cost, and safe products. Our in-house R&D capabilities for new products aided by flexible production resources help clients keep low overheads and increase margin on products they bring to market.
